## Retraction

"The article 'Comprehensive Circular RNA Profiling Reveals the Regulatory Role of the CircRNA-0067835/miR-155 Pathway in Temporal Lobe' [Cellular Physiology and Biochemistry (2018) 51 (3): 1399–1409. https://doi.org/10.1159/000495589]

by Guo-Hua Gong, Feng-Mao An, Yu Wang, Ming Bian, Di Wang and Cheng-Xi Wei has been retracted by the current and former Publishers and the Editor.

After the publication of this article, we were contacted by the corresponding author of the article to retract the article because, they state, there was doubt about the article. The corresponding author and co-authors were asked to provide information about the reason retraction request, however, none replied within the timeframe specified. The matter was been raised to the corresponding author's institution and an Expression of Concern was published [1].

Recently, the results of an investigation by the authors' institution were published; details can be found here: https://www.nsfc.gov.cn/publish/portal0/jd/04/info94739.htm

The published results of the investigation indicate that evidence of misconduct was identified within the article. The authors' institution did not respond to our request to provide more details about the results of the investigation and the authors did not respond to our request to comment on the results of the investigation within the specified timeframe. Therefore, based on the institution's published findings, the article is being retracted.

The authors did not respond to our correspondence about the retraction of this article within the timeframe specified.
